

I entered OCR's world in 2015 with a non-competitive Spartan Race in Milano. Since then I took part in several Spartan Races and OCRs, including some of the Italian National Championship, always as an amateur.

In December 2016 I earned my certificate of FIOCR referee.

In 2017 I started competing, leaving aside Spartan Races and participating in a lot more of OCRs, since I think they are much more in line with my ideal of Obstacles Course.

In 2017 I also started collaborating with FIOCR, handling some of the bureaucracy and documentation and beginning serving as Judge and Volunteer; role I covered also during OCREC 2017 and 2018.

In 2018 I kept on competing in Italian and abroad OCRs and I increased my involvement with FIOCR:

- I prepared and redacted Ranking of almost all the FIOCR's races and updated the Overall Rankings of all National and Local championships
- I prepared the documentation to be used by athletes to prove their qualification to OCREC and to Italian Cup Final
- I kept relationships with the Local Association affiliated to FIOCR
- I discussed with Sponsors, mainly to dress our Italian National Selection who represented us in all international challenged

In 2019 I started an OCR Training Camp where I can put to use my FIOCR's first level Instructor certificate.

I also collaborated in EOSF and OCREC Competition Commission throughout OCR European Championships 2019.

Across the last years I have also gained experience in the management of Obstacle Races, like:

- Assistant Director for Inferno Run (2018-2022)
- Ranking and managing director for CIOCR (8/10 races Italian Championship, 2017-2022)
- Ranking and managing director for FIOCR's Regional Championships (7/8 leagues, 2018-2022)
- Director for Lombardy Regional Championship (5 races, 2019)
- Commission member for FIOCR's Marshall new ranking
- Commission member for FIOCR's Sprint League
- Director for The OCR Games (3 races, 2019-2021)
- Director for Lombardy Regional Sprint League (5 races, 2021)
- Course and Obstacles manager for OCR European Championship 2022
- European Obstacles Sports Federation President since 2021

It is my primary interest to:

- Get OCRs to be well known in Italy
- Get as much Local Associations as possible to work together toward a common goal
- Help to develop Italian Races in accordance with the quality and safety standards we got to understand during the last years. Be them for pro athletes or amateurs
- Help athletes to grow from a competitive and behavioral point of view
- Help the young and youngest to come close to OCRs world as an exciting and funny environment
